

Clearbridge™ Overview

Corporate facts and solution overviews from Clearbridge, Inc.

Clearbridge provides solutions for EDI, XML and other e-commerce initiatives. These solutions include a document exchange network, integration server, and implementation services. With Clearbridge, customers can quickly implement an effective e-commerce program with ease.

Ensure Trade Partner Integration Success

- **Simple Set-up** is facilitated by the ready-to-run Clearbridge Commerce Server Appliance (CSA) deployment model.
- **Effective Roll-out** is ensured by Clearbridge implementation personnel that are responsible for transaction set development, software company and consultant coordination, translation mapping, trade partner interconnections, and transaction testing.
- **Ease of Operation** results from the many built-in status notification and network management services of the Clearbridge offering, pro-active issue resolution, and live customer support.

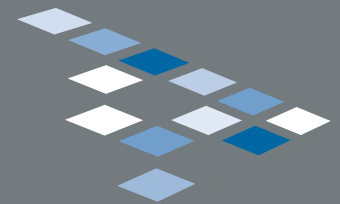

With a Complete Solution Offering

- **Document Exchange Network (DxN)** supports EDI, XML, and flat files, providing in-network document translation, routing, and delivery with complete status tracking and delivery notification.
- **Prospero Application Suite** gives end-users powerful commerce tools such as access to document transmission status, history, and details via an easy-to-use intranet application.
- **Commerce Server Appliance (CSA)** is a server deployed at the customer site that includes hardware, operating system, communications software, and the Prospero suite that ensures ease of set-up and low maintenance.
- **Implementation Services and Customer Support** ensure that document translation maps are implemented quickly, trade partner connections are tested, and on-going operations run smoothly.

Document Exchange Network

AN EASY PATH TO INTEGRATION

- In-Network Translation
- Transaction Status
- EDI, XML, and flat files
- VAN and Internet

Prospero Commerce Manager

A WINDOW ON YOUR E-COMMERCE WORLD

- Transaction status
- Delivery confirmations
- Document archive
- System settings
